Most writers do not want to get down to the technical details of preparing a book for publication. They just want to write!

For me, I like both and try to blend my technical ability with creative flair to bring manuscripts to life and prepare them for publication!

Formatting Expertise: First things first, I make sure that your manuscript meets industry standards for formatting. Whether you're publishing a novel, memoir, academic text, or any other genre, I can format your manuscript with close attention to details such as font selection, margins, spacing, chapter headings, table of contents... to ensure readability and aesthetic appeal.

Appropriate Price Points: I can help in deciding the right price points for your paperback and e-book by focusing on genre, book length, competitor pricing, and reader expectations.

Getting ISBN Numbers and Copyright Details: Every published book requires an International Standard Book Number (ISBN) for identification and tracking purposes. Additionally, securing copyright protection is essential to safeguard your intellectual property rights.

Uploading to Amazon and Independent Booksellers Sites: Once your manuscript is formatted, priced, and properly registered, it's time to get it out there into the world! I can manage the entire distribution process, including uploading your book to popular platforms like Amazon Kindle Direct Publishing (KDP), Barnes & Noble, as well as the extremely important independent booksellers' sites listed under the American Booksellers Association (ABA). ABA provides opportunities for reaching a broad cross section of independent booksellers across the nation.
